

Marking Data Log

Menu → File → Log

The log only displays data from the **PC mode** marking result.

***Data cannot be read in from the controller.**

The screenshot shows the 'Marking Log' window. Callout 1 points to the date and time selection fields. Callout 2 points to the 'Show up' button. Callout 3 points to the 'Save file' button. The window displays a table of marking data with 10 rows. The 'Total numbers' field shows 10.

No.	Date Time	Marking Data
1	03/16/13 20:47:34	1:TEST 2:MarkinBOX 3:0001
2	03/16/13 20:48:05	1:TEST 2:MarkinBOX 3:0002
3	03/16/13 20:54:46	1:12345
4	03/16/13 20:54:52	1:12345
5	03/16/13 20:54:58	1:12345
6	03/16/13 20:55:14	1:1234516
7	03/16/13 20:55:21	1:1234517
8	03/16/13 20:55:28	1:1234518
9	03/16/13 20:55:35	1:1234519
10	03/16/13 20:55:42	1:1234520

--- Instructions ---

1. Input the dates for the period you want to import data for in "From" and "To". (If nothing is input here all the data will be displayed.)
2. Click the **Show up** button to display the data. (Up to 1,000 data items can be displayed.)
3. If required you can click the **Save file** button to save the data in a csv file.
